UZIMA UNIVERSITY

INTRODUCTION

The establishment of Uzima University is a fruit of the vision of Most. Rev. Zacchaeus Okoth the Archbishop Emeritus of Kisumu together with like-minded leaders and members of the Community from across the lake region. Having been moved by the pain and the challenges experienced by the populace in the region, the Archbishop decided to invest in a medical Education and research enterprise that would address the dire need for the provision of medical services and expertise in Africa and beyond.

The founding of Uzima University is a salient response to the much awaited initiative in the Great lakes region and beyond. While posing as the greatest challenge to the region, the prevalence of the tropical diseases is a unique opportunity to invest in the education of medical expertise through creation of erudite and integrated medical personnel who will provide a timely and a relevant response to the preventive, curative and management mechanisms of tropical disease and its complications.

ACCREDITATION AND AUTHORIZATION

The Institution has been accredited by the Commission for University Education (CUE) to offer degree and diploma programmes in Medical & Biomedical Sciences. The programmes have been approved by professional bodies governing the teaching & practice of Medicine, Nursing & Clinical Medicine. These include Medical Practitioners & Dentist Council (MP&DC), Nursing Council of Kenya (NCK), Clinical Officers Council (COC) and Health Records & Information Managers Board (HRIMB).

INFRASTRUCTURE

Established at the dawn of the new millennium, Uzima University has consistently endeavored to set up splendid infrastructure and world class academic resources to support the implementation of its curricula. The management of the University has also hired a unique class of academic and support staff with sterling achievement and global recognition. The University has also partnered with the institutions of the government of the Republic of Kenya and other partners in the USA, Belgium, Germany, Italy, Japan and South Korea this is to ensure the quality of its operations.

A UNIVERSITY WITH A UNIQUE ACADEMIC CHARACTER

The establishment of Uzima University is a landmark in the development of Medical Education and Research enterprise in Africa. The salient motive behind the establishment of the institution is the holistic formation of medical expertise of the region in values and virtues that respects and upholds human life as a special and irreplaceable Divine gift with an exceptional destiny.

Inspired by the words of Christ himself, "I have come so that they may have life, and have it to the full – Jn 10:10", Uzima is a Swahili word denoting the fullness of life. The mission of the University is therefore the service of life in its fullness. This is attainable through a Cosmotheandric approach that integrates the created nature, the human and the Divine aspects of being in the quest of a holistic approach to scientific and human development.

The University is also uniquely characterized with virtues and values that promote human life through an integrated community based research network, thereby developing the local aptitude in a specific, measurable, attainable, realistic and time bound dimension a response to SDGS through a multidisciplinary and interdisciplinary establishment.

Uzima University prides in a pool of experienced and seasoned professionals who have maintained a well-grounded training and continued to produce highly qualified graduates who are ready to serve the society at both local and international level.

VISION

Uzima University envisages a center of excellence in teaching, learning, and research in Medical Education for continuous improvement of the health of the people of the Great Lakes Region and beyond.

MISSION

To train polished and erudite medical expertise who are focused, morally upright, innovative and well equipped for research and work in health care systems with minimal resources.

PHILOSOPHY.

"*Lucaet Lux Vestra* (Let your light shine)"; so that Service to life in its wholeness may be ensured and Health of Body, Soul and Mind achieved.
